EXECUTIVE SUMMARY

Master Principal Cloud Architect and Lead Resident Architect specializing in enterprise cloud infrastructure, automation, and distributed systems engineering. Combining over 13 years of executive tenure at Oracle with foundational systems engineering at Sun Microsystems. Recognized Subject Matter Expert (SME) in Infrastructure as Code (IaC), Terraform, OpenTofu, Ansible, and Oracle Kubernetes Engine (OKE) cluster provisioning automation. Proven technical authority in designing zero-trust cloud architectures, GPU-accelerated AI infrastructure, and high-performance computing (HPC) data pipelines. Tailored specifically for the **Principal Cloud Architect** role at **Enterprise Corp**, bringing deep expertise in leading complex customer onboarding lifecycles, driving high-stakes architectural implementations, and ensuring long-term operational success for mission-critical enterprise workloads.

CORE COMPETENCIES & TECHNICAL EXPERTISE

- **Cloud Infrastructure & Architecture:** Oracle Cloud Infrastructure (OCI), AWS, Azure, GCP, Tenancy Design, High-Performance Computing (HPC), Distributed Parallel File Systems, Data Center Networking
- **Infrastructure as Code & Automation:** Terraform, OpenTofu, Ansible, Packer Golden Image Distribution Pipelines, Automated Landing Zones, CI/CD Security Pipelines
- **Container Orchestration & Cloud-Native:** Oracle Container Engine for Kubernetes (OKE), Node Pool Optimization, Container Security Hardening, Production Best Practices
- **AI Infrastructure & MLOps:** GPU-Accelerated Computing, Enterprise AI Infrastructure Integration, AIOps Frameworks, High-Throughput Data Pipelines
- **Technical Leadership & Executive Strategy:** Enterprise Client Engagements, Strategic Architecture Workshops, Cross-Functional Technical Alignment, Thought Leadership & Technical Publications

PROFESSIONAL EXPERIENCE

Master Principal Cloud Architect & Lead Resident Architect

Oracle | June 2026 – Present | San Francisco Bay Area

- Lead strategic enterprise customer engagements and large-scale cloud migrations (such as Paramount AWS-to-OCI migration strategy), defining execution scope and tenancy design.
- Architect mission-critical cloud infrastructure, high-throughput secure data pipelines, and low-latency networking solutions for tier-1 enterprise clients.
- Publish comprehensive technical documentation, tutorials, and automation frameworks on OKE cluster automation, network configurations, and production readiness.
- Drive cross-functional technical alignment and cloud engineering best practices across major enterprise accounts.

Multi-Cloud Solutions Automation & Security Practice Lead

Oracle | March 2023 – Present | Pleasanton, CA

- Spearheaded enterprise automation frameworks, publishing standardized Terraform/OpenTofu security modules and hardened Packer golden image distribution pipelines.
- Designed and implemented robust automation processes across complex multi-cloud environments, integrating AWS, Azure, GCP, and OCI architectures.
- Achieved significant increases in deployment efficiency and reductions in time-to-market through strategic automation roadmaps and streamlined operational processes.

Master Principal Cloud Architect

Oracle | November 2020 – Present | San Francisco Bay Area

- Architected and delivered large-scale enterprise cloud transformations, guiding major customers through complex migration roadmaps, cloud readiness assessments, and high-availability workload designs.
- Established standardized Infrastructure as Code (IaC) frameworks and automation patterns, driving consistency, security, and velocity across multi-tier cloud deployments.
- Partnered with executive stakeholders, product development, and technical delivery teams to align cloud architectures with long-term business goals, scalability requirements, and governance standards.

Principal Sales Customer Engineer & Technical Staff

Oracle | May 2013 – June 2015 | Santa Clara, CA

- Partnered with senior executives to define strategic vision and technical goals for the Oracle Communication Digital Store (Oracle CDS), collaborating closely with internal engineering, QA, and support teams.
- Led comprehensive RFI/RFP responses, technical prototypes, and high-impact proofs-of-concept (PoCs) to translate business strategy into scalable, production-ready architectures.

Technical Account Manager & Field Engineer Lead

Sun Microsystems | June 2003 – December 2010 | Santa Clara, CA

- Managed global technical evaluations, pre-production deployments, and international project delivery for core enterprise Java platforms and distributed file content architectures.
- Guided major enterprise providers through complex deployment stages, geo-redundant configurations, and compliance documentation across the US, Europe, and Africa.

EDUCATION & CERTIFICATIONS

- **Ph.D. Candidate (Innovative Technology / Mobile Agents & Heterogeneous Networks):** École de technologie supérieure
- **Master's Degree in Computer Science (Parallel Computing & Distributed Systems):** University of Yaoundé, Cameroon
- **Bachelor's Degree in Mathematics, Statistics, and Computer Science:** University of Yaoundé, Cameroon
- **Key Certifications:** HashiCorp Certified Terraform Associate, Oracle Cloud Infrastructure Certified Multicloud Architect Associate, Certified OCI Master Principal Architect / Cloud Automation Practice Specialist

APPENDIXES: OKE BEST PRACTICES AUTOMATION & LIVE-LABS AND MORE

1. Build Once, Import Everywhere: Golden Image Distribution Across OCI Tenancies and Regions (Sept 17, 2026) — LinkedIn Contribution
2. Deploy and Use OKE Clusters with Simple and Advanced Terraform Modules and Best Practices, Oracle Live Lab (Sep 1, 2026) — Oracle Learning Guide
3. Deploy Oracle Cloud Infrastructure Kubernetes Engine (OKE) using Best Practices and Automation, Oracle Education (Feb 20, 2026) — Oracle Learning Guide
4. Deploy Oracle Cloud Infrastructure Kubernetes Engine (OKE) using Advanced Terraform Modules, Oracle Publications (Oct 30, 2025) — Oracle Architecture Center
5. Create Oracle Cloud Infrastructure Kubernetes Engine Cluster using Terraform, Oracle Publications (Jul 11, 2025) — Oracle Help Center
6. Configure Private DNS Zones, Views, and Resolvers to Accelerate OCI Architect Professional Certification with Terraform, Oracle Publications (Nov 19, 2024) — Oracle Help Center
7. Accelerating Oracle Cloud Infrastructure Architect Professional Certification Lab Notes & Practice Guide (Nov 2025)
