EXECUTIVE
SUMMARY
Master
Principal
Cloud
Architect
and
Technical
Sales
Leader
combining
over
13
years
of
executive
tenure
at

Oracle
with
nearly
8
years
of
core
infrastructure
engineering
at
Sun
Microsystems.
Recognized
for
decades
as
a
top
Customer
and
Field
Engineer,
acting
as
a
recognized
Subject
Matter
Expert
(SME)
on
Infrastructure
as
Code

(IaC)
and
Terraform.
Proven
technical
authority
specializing
in
Oracle
Kubernetes
Engine
(OKE)
provisioning
automation
(see
Appendixes),
enterprise
cloud
transformation,
and
multi-cloud
architectures.
Expert
in
leading
complex
customer
onboarding
lifecycles,
driving
high-stakes
architectural
implementations,
and

ensuring long-term operational success for mission-critical enterprise workloads.

CORE COMPETENCIES & TECHNICAL EXPERTISE

- Master Customer Engineering & Lead Architecture: Technical Pre-Sales, Proof-of-Concepts (PoCs), Customer Enablement, Oracle Customer Success alignment, Technical Advisorship, Oracle Kubernetes

Engine
(OKE)
Cluster
Architecture
Deployment
Automation,
Container
Orchestration,
Scalable
Microservices,
Enterprise
Onboarding
&
Operational
Handover

- Multi-Cloud
&
Systems
Architecture:
Oracle
Cloud
Infrastructure
(OCI),
AWS,
Azure,
GCP,
High-Performance
Compute
(HPC),
Distributed
Parallel
File
Systems,

Data
Center
Networking
•
Systems
&
Technical
Leadership:
Deep
Linux
OS
Knowledge,
High-Stakes
Proof-of-Concepts
(PoCs),
Technical
Pre-Sales,
Cross-Functional
Leadership,
AIOps/MLOps
Pipelines
●
Infrastructure
as
Code
(IaC)
&
Terraform
(SME):
Deep
Linux
OS
Knowledge,
Distributed

Systems
(R&D;)
including
HPC,
Subject
Matter
Expert
(SME)
in
Terraform,
OpenTofu,
Automated
Landing
Zones,
Infrastructure
Automation,
Configuration
Management,
Ansible

San

Francisco

Bay

Area

●

Lead

strategic

enterprise

customer

engagements

and

overall

business

opportunities

as

a

senior

Customer

Engineer,

bridging

core

cloud

infrastructure

automation

with

modern

AI

platforms

and

Oracle

Kubernetes Engine (OKE) architectures deployment and operation automation.

- Heavy Infrastructure as Code (IaC) & Terraform Integration: Leverage Infrastructure as Code (IaC) and Terraform to engineer scalable containerized architecture patterns, balancing native Kubernetes (OKE)

implementations
with
automated
operational
toolchains
for
high-throughput
AI
workloads
.
●
Orchestrate
end-to-end
customer
onboarding
lifecycles
spanning
initial
discovery,
governance,
source-to-target
architecture
design,
landing-zone
readiness,
migration
planning,
wave
validation,
pilot
execution,
production
cutover,
and

operational handover.

- Publish multi-part technical blog series and hands-on live labs (see Appendixes) for Oracle Kubernetes Engine (OKE) to empower and enable OCI developers, architects, and implementers with best practices in cloud

automation
and
infrastructure
deployment.
Multi-Cloud

Oracle
|
March
2023
–
Present
|
Pleasanton,
CA

●
Spearheaded
the
development
of
advanced
cloud
solutions
that
transformed
service
onboarding
and
accelerated
digital
execution

for
Oracle's
top
tier
clients
.
●
Designed
and
implemented
robust
automation
processes
across
complex
multi-cloud
environments,
integrating
AWS,
Azure,
GCP,
and
OCI
architectures
.
●
Achieved
a
35%
increase
in
deployment
efficiency
and

a
25%
reduction
in
time-to-market
through
strategic
automation
roadmaps
and
streamlined
operational
processes
.
●
Collaborated
closely
with
engineering
and
external
partner
teams
to
enhance
product
innovation,
ensure
robust
governance,
and
align
technical
roadmaps

with
enterprise
demands.

standards.
Principal
Sales
Customer
Engineer
&
Technical
Staff
Oracle
|
May
2013
–
June
2015
|
Santa
Clara,
CA

- Partnered with senior executives to define strategic vision and technical goals for the Oracle Communication Digital Store (Oracle CDS), collaborating closely with internal engineering, QA, and support teams alongside external consulting partners.

- Led comprehensive RFI/RFP responses, technical prototypes, and high-impact proofs-of-concept (PoCs) to translate business strategy into scalable, production-ready architectures.
- Directed new customer deployments and migration initiatives to accommodate unexpected enterprise growth, ensuring

zero-downtime transitions and robust platform scalability.

Technical Account Manager & Field Engineer Lead

Sun Microsystems | June 2003 – December 2010 | Santa Clara, CA

- Managed global technical evaluations, pre-production deployments, and international

project
delivery
for
core
enterprise
Java
platforms
and
distributed
file
content
architectures
.

- Guided
major
enterprise
providers
through
complex
deployment
stages,
geo-redundant
configurations,
and
compliance
documentation
across
the
US,
Europe,
and
Africa.
